Commercial Intelligence (Japan) in a recent issue, printed the following article:

The American government, requiring tion, under the provisions of part 5 large quantities of cement for work in the Philippines, recently deputed the American Consul at Nagasaki and clusive, Revised Laws of Hawaii), gencertain officers of the navy to inspect eral leases of the following described the products of the Kyushu Volcanic lands: Ash Company of Karatsu, Japan, which are said to have been largely used by the Japanese government for naval works, and to investigate the claims made for the admixture of their "pozzuolana" with cement. It is considered by the company that Portland cement, when used alone for marine work, is liable to crack and cause serious damage after a lapse of time, and their explanation of this defect is that the "free" lime which is produced during the setting of the cement combines with sulphuric and carbonic elements. Now, the theory of Dr. Michaelis, in and said fence to be maintained in mixing cement with volcanic earth known as pozzuolana, is that the soluble element of the pozzuolana absorbs and combines with the "free" lime of the Portland cement, and thereby not only neutralizes any harmful effects, government for settlement or public but, by judicious treatment, helps to give greater tensile strength to the compound than if the cement were used alone. A more compact setting, special less, of the land of Kaohe 5, Hamavalue in art work, and cheapening of kua. Hawaii, above the 3000-foot concost are other important advantages tour line, to be used for pastoral purclaimed for the addition of pozzuolana. The abundance of this material poses,

throughout the volcanic regions of Japan has led to a careful study of the question, and resulted in the establishment of several plants in the Kyushu district. The considerations of uniformity of quality, abundance of supply, and convenience in working and be fenced within two years from date ransportation led the Volcanic Ash Company to select land situated at the top of a range of mountains on a high and about three miles from Yobuko, ex- the term of lease. cellent ports on the northwest coast of the island. The pozzuolana is dug from the hillside and conveyed in carts to ing is completed over furnaces, and the material is then ground and sifted through sieves of 2500 to 5000 perfothe prices for which are at Nagasaki re at Nagasaki and Shimonoseki Moji) 10.5 yen, at Kobe 12 yen, at Yokohama 15 yen.
